

PUBLIC ENTITIES.

Public entities have many unique needs that range from a need for tailored insurance programs that cover their buildings, people and property, a need for a customized risk management plan designed for each individual client and a need for personalized and prompt service for both routine requests and emergencies.

To address these needs, we have developed a program for public entities and have been serving them for over 20 years. and has extensive experience in risk management and loss control, pools and alternative programs.

Our Public Entity Team consists of Judie as Team Leader, Kevin Roehling as Safety & Loss Prevention Specialist, Christine Ensley as Claims Specialist, and Tami Solorzano as Account Manager. We will work with you to identify areas of risk and build and implement a risk management program accordingly. Through the use of an annual service plan we will monitor and amend our plan as needed. We feel this method of serving our client provides for maximum protection as well as promotes a positive work environment.

We specialize in:

Counties • Cities • Townships • Villages • Public Schools • Airports
Power Generation Facilities • Water and Sewer Authorities • Libraries
Municipal Public Transportation Systems • Customized Safety Management
